

Software For Your Safety Program

Training Tracker | Employee Portal | Safety Manager

SAFETY 101

Proactive Safety Software

www.safety101.com

Safety 101 Has Five Features

Training Tracker

Identifies team members with training that has expired or is set to expire

Employee Portal

Supports OSHA guidelines for employee involvement

Safety Manager

Promotes consistent approach to incident investigations, root cause analysis, etc...

Notifications and To-Do Lists

Prevents “safety things” from falling through the cracks

Reports

Generates reports for safety meetings, KPI's, leading indicators, training forecasts, and more

1. Training Tracker

- Ensure your teams have the training they need when they need it
- System generated training plan includes courses needed and suggested attendees
- Dashboard lists upcoming courses along with team members with training that has expired or is set to expire
- Schedule courses, sign up attendees, record attendance

2. Employee Portal

- Provide your team an easy way to share ideas and report hazards
- Facilitate a “good-catch” reward and recognition program
- Access upcoming training course schedule and attendees
- Support OSHA guidelines for employee involvement

3. Safety Manager

- Capture observed hazards, near misses and injuries for all locations in one place
- Promote consistent approach to incident investigations, root cause analysis and corrective action implementation
- Perform periodic audits to ensure once a corrective action is put in place, it stays in place
- Generate OSHA 300 Forms and download 300A CSV for electronic submittal to OSHA

The screenshot displays the 'SAFETY 101 Proactive Safety Software' interface. The top navigation bar includes the logo, user information 'Vandelay Industries | clayton@erp101.com', and utility links: 'To Do', 'Settings', 'Swap Account', and 'Log Out'. The main menu features 'TRAINING', 'KIOSK', 'SAFETY MANAGER' (highlighted), 'OSHA 300 FORMS', and 'REPORTS'. The left sidebar lists 'INCIDENTS' (with 'Add Safety Incident' selected), 'AUDITS' (with 'Record Audit Findings'), and 'OTHER' (with 'Work Restrictions' and 'Non-work Injuries'). The main content area is titled 'ADD SAFETY INCIDENT' and prompts the user to 'Select from the four types of incidents'. The options are: 'Observed Hazard' (with a magnifying glass icon), 'Near Miss (No Injury)' (with a person slipping icon), 'Minor Injury' (with a person carrying a first aid kit icon, highlighted in blue with a 'Select' button and a hand cursor), and 'Serious Injury (OSHA Recordable)' (with a person in a medical cap icon). A link for 'Add Privacy Concern Case >>' is at the bottom.

4. Notifications and To-Do Lists
